September 09, 2017

RE: 11th International Conference on Healthcare Systems and Global Business Issues

Dear Sir/Madam,

It gives me immense pleasure to inform you that IMS Unison University, Dehradun will be hosting and organizing the '**11th International Conference on Healthcare Systems and Global Business Issues**' on January 2-3, 2018. Over the past 17+ years, the conference has established a rich history of fostering mutually beneficial collegiality amongst academicians, research scholars, students, and industry leaders, many of who are based in United States. IMS Unison University is only the third institution in Asia where this international conference will be held. This conference will provide a platform to the participants to interact with distinguished academicians, research scholars, students, and practitioners from the fields of business administration, healthcare administration, and law to exchange research, thoughts, and ideas pertaining to these areas with a global perspective.

We have already got confirmation from several academicians in the United States regarding their participation in this conference. They have already booked their tickets and are enthusiastic in sharing their research work in the conference. We have also received confirmation for web based paper presentations (through Skype or Zoom) from few researchers globally. Several highly regarded academicians in India have also confirmed their participation in the conference.

We encourage you, your colleagues and students to submit research papers for review and consideration for presentation in this conference. Only the full papers received by October 15, 2018 will be considered for the "Paul T. Bruder Distinguished Paper Award". All accepted papers will be published in the conference proceedings, for which at least one author must register by October 31, 2018.

We will again respectfully request your assistance in promoting the conference to your colleagues and students, and encouraging them to participate. The brochure of the conference is attached herewith for your kind perusal and ready reference.

With thanks and regards,

Ashish Chandra

Prof. Ashish Chandra
Professor of Healthcare Administration
College of Business
University of Houston - Clear Lake, USA
