ABOUT UPES SCHOOL OF LAW, DEHRADUN

University of Petroleum and Energy Studies (UPES) was established in the year 2003 through UPES Act, 2003 of the State Legislature of Uttarakhand. With an ambitious vision and unique approach, UPES emerged as an innovative institution offering industry-focused specialized graduate, post graduate and doctoral programs in key areas such as Energy, Infrastructure, Transportation, Information Technology, Design, Planning & Architecture, Public Policy and Legal studies.

Founded by prominent educationalists and industry experts, UPES is committed to maintaining high standards in providing quality education.

The university endeavors to be recognized as a 'Nation Builders University' with a progressive vision for creating specialized professionals in the core sectors that can contribute to the economic growth of the country. The university's objective is to develop competent technocrats, professionals and managers who are ready to join the core industries. Advanced teaching methodologies, innovative and updated curricula and the focus on 'on-the-job exposure' give UPES students the edge to be readily deployable in their chosen field.

UPES School of Law has been a pioneer in grooming modern day legal professionals with a multi disciplinary edge since its inception in 2007. It offers basic and specialized law courses in Corporate Law Specialization, Energy Specialization, Taxation laws, Intellectual Property Rights, Cyber Law, Criminal law, Labour law, Constitutional Law, Banking Finance and Insurance, International Trade and Investment, Media and Entertainment Law, Medical Law, Food Law, Health Law and Forensic Law. UPES is the first University in South Asia to offer the first of its kind 6 year integrated techno legal (B.tech LL.B.) program specializing in Intellectual property Rights and Cyber Law respectively.

The objective of School of Law is to produce competent and strong legal professionals for the future. Global corporations across the world need legal guidance for execution of various corporate affairs such as collaborations, mergers & acquisitions, joint ventures, technology transfers, patents & intellectual property rights, labor law etc. and what makes it stand apart is the inclusion of techno-legal programs such as LLM with specialization in Energy Law and several specialized programs including Computer Science & Engineering, with specialization in Cyber Law which is a field of prime importance in the future.

BACKGROUND AND OBJECTIVES OF WORKSHOP

Crime is an act against the state, against the society at large. Generally speaking, it is an action or omission which is punishable by law. Thus crimes are public wrongs which are deemed injurious to the public welfare or morals or to the interests of the state and are legally prohibited.

The present litigation workshop aims to address the fundamental as well as contemporary issues of substantive and procedural criminal law. Law and order is the prime responsibility

of the state and the Criminal Justice system of the state involves various functionaries in the performance of the same. This Workshop is a platform to deliberate upon and discuss the various issues and challenges in the administration of the Criminal Justice System. The participants will be exposed to the core concepts of Criminal Law and the application of same in the Courts. Various aspects of the Substantive and Procedural criminal laws, Crimes against women, Cyber Crimes, Drug Addiction and Drug abuse and other contemporary issues in Criminal Law would be discussed in the Workshop. Further, it would bring together academicians, professionals and students on a common platform in the field of Criminal Law Litigation.
