About the Indian Research Scholars Association

All India Research Scholars Association is a platform whose objective is to exchange creative, constructive, promotional, and progressive dialogue with research scholars in all the universities, colleges, and research institutes of India doing research in the subjects of Social Sciences, Arts, and Humanity.

CONCEPT NOTE

While the development of norms of human rights has been a challenge, its significance has always occupied a pivotal position in policy considerations at the national and international level. Implementation of Human Rights basically refers to actual compliance with human rights standards by individual states as well as all initiatives taken by those states themselves, other states and international organs or other bodies to enhance respect for human rights and prevent violations.

The objective of the International E-Conference is to provide a platform for discussion about the latest issues in the field of human rights and highlighting the possible solutions to the problems. This conference will serve as a platform for participants to come forward to reflect upon and address various issues being faced. Apart from plenary sessions, this conference will also ponder over our response towards such challenges and to be aware of what approaches are adopted in different countries.
